DIARY NOTES

25X1A

DD/S

[REDACTED] *JK*

17 June 1963

25X1A6a

1. I advised Matt Baird that, contrary to OTR's understanding, the [REDACTED] do count against their personnel ceiling. I told Matt, however, that I had no objection if he desired to proceed with a request for [REDACTED] separately from the over-all request for an increase of personnel.

2. I talked to [REDACTED] and requested that the Office of Personnel undertake a survey of the employment of negroes in the Agency. I suggested that he give us a report as to the number, grades, components in which employed, etc., with particular attention to any whose jobs appear to be below the level of their educational qualifications.

25X1A9a

3. I requested an appointment with General Carter to get policy guidance from him on how we should handle our reply to the Moss Committee concerning the use of the polygraph in the Agency. I suggested that Shef Edwards and John [REDACTED] as a minimum, should attend.

25X1A9a

4. I telephoned [REDACTED] to call to his attention the excessive Fitness Report delinquency rate in the FE Division. He assured me that necessary action had been taken to remedy this situation.

6. I met with [REDACTED] about several aspects of Rex's latest monthly Recruitment Progress Report. Since my campaign of last year to get more JOT's they have been requiring that the JOT pitch be made to all prospective employees. They want now to leave this to the judgment of the recruiters. I approved of this; however, I emphasized that this would not change my instructions that the JOT Panel review the files of all people coming into the Agency who appear to be qualified for the JOT Program and that through this method we would see how good the recruiter's judgment is.
